# Managing Suicidal Patients in Rural Settings

 **December 16th, 2020 | 12 – 1:30 PM MST**

## Learning Objectives:

- Specific strategies to address the unique challenges rural areas face for suicide prevention
- Assist patients with suicidal symptoms in a collaborative way, anchored in their values and priorities
- How to assess suicide risk in 10 minutes or less
- Discuss with patient's ambivalence and reasons for living
- Collaboratively devise a crisis response plan that may reduce suicide attempts by 76%

**Dr. Kent Corso**  
*Psychologist*

Dr. Corso is a licensed clinical psychologist and board-certified behavior analyst. His experience in suicide prevention began two decades ago while serving as an officer in the U.S. Air Force. He has researched, developed and trained others to implement evidence-based methods of suicide prevention nationally and internationally.
